

## The Clubhouse by Ashley

# THANK YOU FOR YOUR INTEREST IN THE STRENGTHENING FAMILIES PROGRAM.

Providing a loving and stable home to their children is what caregivers aim for and what children need to face the challenges of growing up. Creating such an environment can become difficult for caregivers when substance use disorders (SUD) come into play, either through themselves, their children or other family members/friends. This is why Ashley offers the Strengthening Families Program as part of its Adolescent Clubhouse services—to help families stay strong together.

Strengthening Families is an evidence-based family skills training program for families influenced by or at-risk for SUDs. The program operates from a strengths-based approach, seeking to empower the family unit.

As part of The Clubhouse by Ashley (“The Clubhouse”), the Strengthening Families Program focuses on helping caregivers strengthen and develop parenting skills that will help them provide the structure and boundaries the whole family needs to withstand SUDs. Together with the training the adolescents receive, the program improves family relationship skills and bonding, and fosters social competencies, healthy friendships and a decrease in aggression and depression in adolescents.

The Strengthening Families Program is an 11-week program consisting of one evening session per week and is free of charge. It conveys five key protective concepts:

1. Parental Resilience
2. Social Connections
3. Knowledge of Parenting
4. Child Development
5. Social and Emotional Competence of Children

While we are offering the SFP training program virtually, we will deliver meals to the participating families’ houses for each scheduled session. We will provide supplies to all participant families prior to beginning the cycle. Once we can resume in-person services, all services will be offered at our physical space.
